Don't Forget about the Memory Jogger!

Use the memory jogger worksheets to come up with more names of people you can ask. Remember, it's a great cause, and scleroderma needs more awareness ... this is your chance to spread the word about this devastating disease and give people in your community the opportunity to help those suffering from it. We need everyone's help and support to continue searching for a cause, and ultimately a cure for scleroderma

MEMORY JOGGERS

Our minds tend to store names by categories, so it's easier to remember people if we try to do it categorically. Have committee members take a few minutes to fill out the following pages, and you'll be amazed at how many contacts you already have amongst yourselves!

Many times we have preconceived notions of how people will respond to a request for support, sometimes the people we think least likely to respond will be our best advocates, and people we think will be enthusiastic show no interest at all. Try not to guess someone's answer before you ask the question, and don't take any rejection personally. Some people aren't in a financial position to help, or may be supporting another worthwhile cause. Give everyone the opportunity to help, but don't pressure them.
