

## Where your donation goes. . .

This chart illustrates what your Scleroderma Foundation membership or contribution supports.

Ninety-three percent of every dollar received provides funding for scleroderma research and education (39%), support and advocacy (51%), and fundraising (3%), including our National Patient Education Conference held annually, our national network of 22 chapters and 145 support groups, patient education and public awareness materials, advocacy on behalf of patients and families, a dedicated 800 # telephone line, and our Web site, [www.scleroderma.org](http://www.scleroderma.org).

Your generosity is the backbone of the Scleroderma Foundation's three-fold mission of Support, Education, and Research.
