SCLERODERMA FOUNDATION

SUPPORT • EDUCATION • RESEARCH

eLetter #590 | January 16, 2015

Read the Scleroderma VOICE Archives at Our Website

One of the benefits of membership to the Scleroderma Foundation is a subscription to our member magazine, the "Scleroderma VOICE." Published four times each year, each issue includes patient profile stories, tips for improving your quality of life while living with scleroderma, research and treatment updates and more!

You can read selected articles from previous issues of the VOICE right at our website for free, including patient profiles and Q&As!

CDER Approved Many Innovative Drugs in 2014

Each year, FDA's Center for Drug Evaluation and Research (CDER) typically approves more than 100 new medications. A portion of those are novel new drugs, medications that have not previously been approved by FDA and are often among the most innovative products serving previously unmet medical needs or otherwise significantly helping to advance patient care and public health. The CDER approved 41 novel drugs this year, the most in nearly 20 years.

PHA Webinar: The Role of Patient Education in the Care of PH

This free webinar held by the Pulmonary Hypertension Association will review the key points presented in the *Newly Diagnosed Self-Study: PH Ready* and *Newly Diagnosed Self-Study: PH Ready Caregivers* curriculum. Dr. Vinicio de Jesus Perez of Stanford University will review the several resources available to help patients and caregivers deal with PH in the long term, and offer tips on how to better cope and manage PH. The webinar will be held on Friday, January 30, 2015 at 02:00 p.m. EST.

Service Dogs for America

Service Dogs for America continues the rich tradition of encouraging and empowering those with special needs through custom trained service dogs. Their goal is to facilitate specialized training, education, and ensure the placement of service dogs to individuals with special needs, without causing financial burdens.

Disclaimer: The Scleroderma Foundation in no way endorses any drugs, treatments, clinical trials, or studies reported in the eLetter. Information is provided to keep the readers informed. Because the manifestations and severity of scleroderma vary among individuals, personalized medical management is essential. Therefore, it is strongly recommended that all drugs and treatments be discussed with the reader's physician(s) for proper evaluation and treatment.
