

1994 Grants

Investigator	Institution	Project Title	Grant Duration	Amt Granted
Frank Arnett, M.D.	University of Houston Houston, Texas	Epidemiology and genetics of systemic sclerosis in Choctaw Native Americans	One Year	\$35,000
Constantin Bona, M.D.	Mount Sinai Hospital New York, N.Y.	Effect of immune defects in the development of cutaneous hyperpasia in tight skin mice	One Year	\$35,000
Paul Bornstein, M.D.	University of Washington Seattle, Wash.	Regulation of collagen synthesis in vascular endothelial cells and fibroblasts	One Year	\$31,500
Elaine Davis, Ph.D.	Elaine Davis, Ph.D.	Elastic fiber assembly in scleroderma	One Year	\$30,500
William Earnshaw, M.D.	Johns Hopkins University Baltimore, Md.	Exact mapping of auto-epitopes in scleroderma	One Year	\$31,816
Barry Gruber, M.D.	SUNY at Stony Brook Stony Brook, N.Y.	Mast cells regulate fibroblasts adhesion molecules: functional consequences	One Year	\$35,000
Gloria Higgins, M.D., Ph.D.	University of Tennessee Memphis, Tenn.	The processing and biological role of IL-1 beta prepeptide in scleroderma patients and normal controls	One Year	\$35,000
Stanley Hoffman, Ph.D.	Medical University of South Carolina Charleston, S.C.	Extracellular matrix proteins as modulators of cell behavior in scleroderma	One Year	\$34,000
Sergio Jimenez, M.D.	Thomas Jefferson University Philadelphia, Penn.	Effects of retroviral proteins on collagen gene expression in human dermal fibroblasts	One Year	\$35,000
Ira Targoff, M.D.	Oklahoma Medical Research Foundation Oklahoma City, Okla.	Conformational epitopes of the PM-Sci autoantigen	One Year	\$35,000
Maria Trojanowska, M.D.	Medical University of South Carolina Charleston, S.C.	Regulation of collagen transcription	One Year	\$35,000
Dolores Vasquez-	University of	Analysis of human	One Year	\$31,000

Abad, M.D.	Connecticut Health Center Farmington, Conn.	anticentromere idiotypes and immunoglobulin variable region usage		
Barbara White, M.D.	University of Maryland Baltimore, Md.	Diversity of CD8+T Cells in the lungs of systemic sclerosis patients with active alveolitis	One Year	\$35,000
Timothy Wright, M.D.	University of Pittsburgh Pittsburgh, Penn.	Analysis of epidemiologic, clinical, and genetic features of systemic sclerosis in twins	One Year	\$35,000
			Total Granted 1994:	\$473,816

All grants collaboratively funded by the Scleroderma Federation and the United Scleroderma Foundation.
