

2000 Grants

Investigator	Institution	Project Title	Grant Duration	Amt Granted
Sergei Atamas, M.D., Ph.D.	University of Maryland School of Medicine Baltimore, Md.	CD40 regulation of IL-4 and IFN-g effects on fibroblasts	One Year	\$50,000
Constance Brinckerhoff, Ph.D.	Dartmouth Medical School Hanover, N.H.	Genetic analysis of a single nucleotide polymorphism in the collagenase-1 promoter in scleroderma	Two Years	\$99,936
Paul Christner, Ph.D.	Thomas Jefferson University Philadelphia, Penn.	Induction of Scleroderma by Fetal Cells in the Mouse	Two Years	\$100,000
Jennifer Haythornthwaite, Ph.D.	Johns Hopkins University of Medicine Baltimore, Md.	Quality of Life in Scleroderma	One Year	\$49,558
Peter Merkel, M.D., M.P.H.	Boston University School of Medicine Boston, Mass.	Development and Validation of Outcome Measures for Systemic Sclerosis for Use in Clinical Research and Care	Two Years	\$99,120
Stephen Oliver, M.D.	Rockefeller University New York, N.Y.	T Cell Immunity in the Pathogenesis and Collagen Biosynthesis of Scleroderma	Two Years	\$94,814
Elena Tourkina, Ph.D.	Medical University of South Carolina Charleston, S.C.	Regulation of Collagen Accumulation by PKC Isoenzymes	Two Years	\$100,000
Russell Widom, Ph.D.	Boston University School of Medicine Boston, Mass.	Regulation of collagen Transcription by Histone Modification	Two Years	\$100,000
Jeffrey Wilusz, Ph.D.	New Jersey Medical School Newark, N.J.	Relationship of mRNA Stability to Polymyositis-Scleroderma Syndrome	One Year	\$50,000
			Total Granted 2000:	\$743,428

All grants funded by the Scleroderma Foundation.
