

2001 Grants				
Investigator	Institution	Project Title	Grant Duration	Amt Granted
Sergei Atamas, M.D., Ph.D.	University of Maryland School of Medicine Baltimore, Md.	Mechanisms of Synergy Between CD40 Ligation and IL-4 in Fibroblasts	One Year	\$50,000
Richard Bucala, M.D., Ph.D.	The Picower Institute for Medical Research New York, N.Y.	Role of Peripheral Blood Fibrocytes in the Pathogenesis of Scleroderma	Two Years	\$100,000
Stephen Clark, Ph.D.	University of Connecticut Health Center Farmington, Conn.	Studies of Collagen Synthesis in the Tight Skin Mouse	One Year	\$60,000
Mario Del Rosso, M.D.	University of Florence Florence, Italy	Angiogenesis in Systemic Sclerosis: role of the plasminogen activation system	Two Years	\$100,000
Asish Ghosh, Ph.D.	University of Illinois at Chicago Chicago, Ill.	Regulation of Type I Collagen Gene Expression by Tumor Suppressor Gene p53: Implication in Scleroderma	Two Years	\$89,671
Bashar Kahaleh, M.D.	Medical College of Ohio Toledo, Ohio	Endothelial Gene Expression in Scleroderma	Two Years	\$100,000
Nathalie Lambert, Ph.D.	Fred Hutchinson Cancer Research Center Seattle, Wash.	Microchimerism in the pathogenesis of systemic sclerosis	Two Years	\$100,000
Shinsuke Takagawa, M.D.	University of Illinois at Chicago Chicago, Ill.	Role of Smad Signaling in a Model of Scleroderma	Two Years	\$100,000
Maria Trojanowska, Ph.D.	Medical University of South Carolina Charleston, S.C.	The role of Ets factors in the mechanism of fibrosis	Two Years	\$100,000
Barbara White, M.D.	Baltimore VA Medical Center Baltimore, M.D.	Chemokines and lung Fibrosis in Scleroderma	Two Years	\$100,000
			Total Granted 2001:	\$899,671

All grants funded by the Scleroderma Foundation.
