

2005 Grants

Investigator	Institution	Project Title	Grant Duration	Amt Granted
David Askew, Ph.D., new investigator	Case Western Reserve University Cleveland, Ohio	APC-T Cell Interactions in Sclerodermatous Graft Versus Host Disease	Three Years	\$150,000
Galina Bogatkevich, M.D., Ph.D., new investigator	Medical University of South Carolina Charleston, S.C.	Functional Proteomics of CTGF- Induced SSc Lung Fibroblasts	Three Years	\$150,000
Edwin Chan, M.D., FRCPC, new investigator, renewal award	New York University School of Medicine New York, N.Y.	Purinergic Modulation of Dermal Fibrosis	Two Years	\$100,000
Bashar Kahaleh, M.D., new investigator Mark Flapan Award (presented to the investigator with the highest scoring proposal)	Medical College of Ohio Toledo, Ohio	Epigenetics and Pathogenesis of Scleroderma	Two Years	\$150,000
Margaret Markiewicz, M.D., new investigator	Medical University of South Carolina Charleston, S.C.	Role of TGF-beta and CTGF and the Process of New Vessel Formation in Scleroderma	Three Years	\$150,000
Timothy Quan, M.D., new investigator	Yale University School of Medicine New Haven, Conn.	Role of Peripheral Blood Fibrocytes in Nephrogenic Fibrosing Dermopathy	Three Years	\$150,000
Mitchell Watsky, Ph.D., established investigator, Marta Marx Award for the eradication of Scleroderma (presented to the investigator with the second highest scoring proposal)	University of Tennessee Health Science Center Memphis, Tenn.	C1 Channel Activity and Function in Systemic Sclerosis Myofibroblasts	Two Years	\$150,000
			Total Granted 2005:	\$1,000,000

All grants funded by the Scleroderma Foundation.
