

2007 Grants				
Investigator	Institution	Project Title	Grant Duration	Amt Granted
Rachael Ann Clark, M.D., Ph.D. (new)	Brigham and Women's Hospital, Boston, MA	Regulatory T cells in the Tight Skin 2 Mouse Model of Scleroderma	Three Years	\$142,850
Michael Robert York, M.D. (new)	Boston University, Boston, MA	The Role of Anticentromere Antibodies in the Stimulation of Toll-like Receptor 9 in Systemic Sclerosis	Three Years	\$142,850
Hon K. Yuen, Ph.D., O.T.R. (est)	Hon K. Yuen, Ph.D., O.T.R. (est)	A Multi-Faceted Investigation to Improve Oral Health in Adults with Systemic Sclerosis	Two Years	\$142,850
Branko Stefanovic, Ph.D. (est)	Florida State University	Cloning and Characterization of RNA Binding Proteins which Regulate Expression of Type I Collagen in Scleroderma Fibroblasts	Two Years	\$142,850
Marlene Rabinovich, M.D. (est)	Stanford University, California	S100A4/MTS1-Induced Pulmonary Hypertension and Scleroderma	Two Years	\$142,850
Carlo Selmi, M.D., Ph.D. (new)	University of California, Davis	Epigenetics of X-Linked Genes in Scleroderma: Does X Mark the Spot?	Three Years	\$142,850
Silvia Smaldone, Ph.D. (new)	University of Medicine & Dentistry of New Jersey-Robert Wood Johnson School of Medicine	Molecular Characterization of a New Scleroderma Pathway	Three Years	\$142,850
			Total Granted 2007:	\$999,950

All grants funded by the Scleroderma Foundation.
