

2013 Grants

Investigator	Institution	Project Title	Grant Duration	Amt Granted
Antonis Aliprantis, M.D., Ph.D.	Brigham and Women's Hospital	Endogenous danger signaling via IL33 and IL13 in inflammatory scleroderma	Two years	\$ 150,000.00
Carol M. Artlett, Ph.D.	Drexel University	Inflammasome Regulation of miR- 155 During Fibrosis	Two years	\$ 150,000.00
Irina G. Luzina, M.D., Ph.D.	University of Maryland School of Medicine	The Role of Alternatively Spliced Interleukin- 4 in Scleroderma	Two years	\$ 150,000.00
J. Lee Nelson, M.D.	Fred Hutchinson Cancer Research Center	Phenotypic Characterization of Multisource Microchimerism in Systemic Sclerosis Lung	Two years	\$ 150,000.00
Patricia Ann Pioli, Ph.D.	Dartmouth University School of Medicine	Mechanisms of Macrophage Activation and Function in Scleroderma	Three years	\$ 150,000.00
Jun Wei, Ph.D.	Northwestern University	Novel pathways of fibrosis: targeting cyclin-dependent kinase	Three years	\$ 150,000.00
			Total Granted 2012:	\$ 900,000.00

All grants funded by the Scleroderma Foundation.
