Interact with researchers who are advancing the understanding of scleroderma and developing treatment possibilities. A poster session is a relaxed format that allows an up close view of the scientists' work and a chance to ask one-on-one questions. It is an invaluable learning experience for attendees and presenters alike.

Welcome Reception
Salon III, 7th Floor

Reconnect with the friends you made at conference last year and make new ones while you enjoy light refreshments. Young adults, look for yellow balloons at the welcome reception and in meal rooms to sit together.
