eLetter #586 | December 19, 2014

Video: National Patient Education Conference Closing Keynote with Dr. Daniel Furst

In this week's video Daniel E. Furst, M.D. presents the closing keynote address to the 2014 National Patient Education Conference in Anaheim, CA, titled "The Next Steps Forward in Systemic Sclerosis (SSc) Research." Dr. Furst is the first Carl M. Pearson Professor of Medicine at the University of California, Los Angeles (UCLA), Medical Center. He also is a member of the Foundation's National Medical Advisory Board and vice president for the Southern California Chapter's Board of Directors.

Check Out the Scleroderma Foundation Board on Inspire

One of the Scleroderma Foundation's most-used resources is our online community, hosted by Inspire, the online social network for health. With more than 13,000 members and 50,000 posts, the Inspire community has grown exponentially over the past few years. Members come from all around the world. Many of them are individuals struggling to find answers and resources about living with scleroderma, while others are caregivers or family members of someone with the disease. Discussion board topics range from advice for choosing a doctor to what food to eat to help alleviate scleroderma symptoms.

American Medical Association Atlas of the Human Body

and more with this handy tool.

[Visit the Atlas of the Human Body at the AMA website >>](#)

Fully illustrated and informative, the Atlas of the Human Body on the American Medical Association (AMA) website can help you learn more about the human body and how it functions. Improve your health literacy by reading passages on the circulatory system, muscles, skin,

What is ClinicalTrials.gov?

ClinicalTrials.gov is a web-based resource that provides patients, their family members, health care professionals, researchers, and the public with easy access to information on publicly and privately supported clinical studies on a wide range of diseases and conditions, maintained by the National Library of Medicine at the National Institutes of Health. Information on ClinicalTrials.gov is provided and updated by the sponsor or principal investigator of the clinical study.

Disclaimer: The Scleroderma Foundation in no way endorses any drugs, treatments, clinical trials, or studies reported in the eLetter. Information is provided to keep the readers informed. Because the manifestations and severity of scleroderma vary among individuals, personalized medical management is essential. Therefore, it is strongly recommended that all drugs and treatments be discussed with the reader's physician(s) for proper evaluation and treatment.
