

**Name:** Ali Bodle

**Professional Affiliation:** Teacher

**What is your direct relationship to the scleroderma community?** My mom was diagnosed with scleroderma 11 years ago. She is amazing and so strong! As a family, we are supporting her as well as the scleroderma community. Each year, we promote the Scleroderma Stampede to family and friends and attend with a group to support the cause of finding a cure.

**Why have you chosen to serve as a member of the board for the Scleroderma Foundation Michigan Chapter?** I chose to serve as a member because I want to help the scleroderma community create awareness in order to find a cure for this debilitating disease.
