

**Name:** Josh Jarvie

**Professional Affiliation:** Plante  
Moran, PLLC

**What is your direct relationship to the scleroderma community?** As board members, we're continuously meeting throughout

the year as a group to strategically look for ways to benefit the scleroderma community and patient population. We also volunteer time presenting to various groups throughout the state, educating them on scleroderma and help with operations of the annual run/walk at the Detroit Zoo.

**Why have you chosen to serve as a member of the board for the Scleroderma**

**Foundation Michigan Chapter?** While I don't have any personal ties to scleroderma, my wife suffers from a different autoimmune disease, so I have some exposure to how these diseases can impact the patient, family, and friends. I also work 100 percent with non-profits in my day-to-day career, and

thought this would be a great opportunity to further my involvement in the non-profit community.

**What else would you like us to know about you?** I have a high level of respect and admiration for not only the work non-profits do and the contributions made to the community, but for the individuals behind them keeping them going. I truly enjoy working with and being part of this community.
